CIRCULAR

An earnest appeal to all concerned:

Our student Manosij Banerjee, Department of English (PG I.) has been admitted to the Calcutta Medical Research Institute (Alipore) in a serious condition. As a person with Multiple Disabilities, he already lives with Locomotor Disability and neurological disorder, causing rare and chronic Ankylosing Spondylitis. This particular Medical condition weakened his immunity and makes him more vulnerable to Covid-19 and other related complications.

We have been informed that Doctors diagnosed excessive fluid in Manosij's brain, which can necessitate an emergency surgery at any time. The ongoing treatment and future surgery would take a huge expense. His family badly needs our support at this critical moment. We request you all to contribute financially as far as you can.
