JADAVPUR UNIVERSITY, Kolkata is at present an internationally recognized premier university of the country. It has started in this form in the year 1955 and is now an urban university with a global perspective and is dedicated to creating leaders. The University, which is ranked as 5-star and University with Potential for Excellence and one of the highest ranked NAAC accredited institute, not only engages itself in teaching and research but also provides societal services for the benefit of rural and urban populations.

About the Workshop

This workshop has an objective to transmit the importance of waste water treatment process and to enhance the knowledge about probable water treatment technologies and their recent developments. Internationally and Nationally renowned speakers will deliver speeches on advancement of separation process and hybrid separation techniques for waste water treatment purposes. The speakers will cover a broad area in their presentation from conventional membrane technology to modern nanotechnology. The workshop is intended to offer a platform to young researches to present their researches in technical session. The Organiser is expecting the participation in the workshop from the academicians, researchers, students, interested individuals working in the relevant fields.
