

We are all aware about the regular disasters happening worldwide. India is not beyond that. Though there are some mechanisms for combating disasters in our country, criticism is often voiced about the effectiveness of those tools to take the challenges posed by the disasters in the current era of technological advancement. India needs huge manpower, having technical expertise, training and awareness for disasters management, certainly in terms of preparedness. Also UGC is emphasizing on the **institutionalization of Disaster Management**.

Therefore, there is a need to critically examine our disaster management structures / tools in terms of disaster preparedness, and suggest measures to Disaster Risk Reduction (DRR).

The **present workshop** proposed to be held on "**Health Monitoring & Rehabilitation of Structures**", considering the health of the old structures all over the World. The health monitoring of the old structures is very important task to be covered so that the existing structures can be retrofitted, which may withstand the earthquake upto a certain level.

About the Workshop

This workshop has an objective towards the awareness generation among the participants & strengthening the manpower regarding, **Health Monitoring & Rehabilitation of Structures** and to train the participants for the same. **Internationally & Nationally renowned Speakers** will cover the issue, methodology, and materials. The workshop includes a **special session for interaction between the experts and the participants**, which will involve the prospective and constraints of practical experience.

Targeted Participants

The Organiser is expecting the application for participation in the Workshop from the interested individuals in general from Policy Makers, Technocrats & Engineers, Government Officers, NGO Members, Academicians, Researchers, & Students, including Government Agencies of Housing/ Industrial Development, Builder / Architects, Administrators including all interested persons working in the relevant fields, particularly the Civil Engineers, Mechanical Engineers & Chemical Engineers by profession.

Due to limited seats, the interested participants are requested to register themselves on or before **November 01, 2018**, with filled up form and registration fee. If seats are available after that, the organiser will definitely accept the application. **No TA/DA** can be offered & the **accommodation**, if required, has to be **arranged by the participants** only.

JADAVPUR UNIVERSITY, Kolkata is at present an internationally recognised premier university of the country. It has started its journey as NCE Bengal Education, in the year 1905, and converted in university in the year 1955 and is now an urban university with a global perspective and is dedicated to creating leaders. The University, which is ranked as **5-star** and **University with Potential for Excellence** and one of the highest ranked **NAAC accredited** institute, not only engages itself in teaching and research but also provides societal services for the benefit of rural and urban populations.
