### About the Seminar

Knowledge Organization (KO) is the primary task of Library & Information Science (LIS) professionals. For a long time, LIS people are using standard tools like DDC, UDC, CC, AACR2 and many others for organizing knowledge in libraries and information centers. But due to the tremendous growth of World Wide Web (WWW) in last two decades, the domain of KO has become more complex, multidisciplinary and technology driven. Many new tools have been evolved to cater the problems of KO whereas traditional tools have also been revised to meet the need of the days. Moreover, multilingual and local issues are areas where much works remain to be completed. Public libraries suffer the most due to the lack of standard tools for KO. Keeping these problems in mind, the Department of Library & Information Science, Jadavpur University is going to organize a two day 'National Seminar on Recent Trends in Knowledge Organization' during 8th to 9<sup>th</sup> February, 2019.
