National Symposium on

Innovative Technology & Management
for Sustainable Growth

16- 17 January 2023

Organized Jointly by

Faculty of Engineering & Technology,
Jadavpur University, Kolkata 700 032

And

Vivekananda Institute of Environment &
Management, Kolkata 700 091

Objective

The entire World is celebrating the completion of 75 years of Indian Independence. Now it is high time to stress upon the appropriate Engineering, Technology and Management in a synergistic manner particularly befitting for this New Era. Covid pandemic is over. The whole World got a jolt definitely, but it is true that because of this pandemic, the emergence of certain new dimensions of life became possible which is focused on innovations and simplicity. The indiscriminate technological developments are not always helpful for mankind. The sustainable and humanistic growth is the need of Today's world. At this juncture, our consortium, Vivekananda Institute of Environment & Management and Jadavpur University, planned the Annual National Symposium with a focal theme **Innovative Technology & Management for Sustainable Growth** on 16-17 January 2023, suitable to keep our academic spirit up. This is very much needed for rebuilding our country for a better tomorrow. From the beginning, NCE, the parent body of JU and later the University has always taken up various Humanistic Endeavors for developing the nation. From this standpoint the title of Symposium seems to be very appropriate. A special criteria in today's world is— the Engineering disciplines are becoming borderless. Earlier it was believed that pollution and waste management were the cup of tea of core engineers. But now various aspects of Electromagnetic radiation and E-waste management became the inherent part of ICT disciplines. It is believed that New India would emerge as a Global Leader towards Sustainable Development— to be achievable by synergy of State Power, Industries and Academia with Common People at the Focus. The program would quest for appropriate Innovative Technology including Green Energy Sources and its Applications, Stopping the menace of Microwave Radiation, Innovative Low-cost Technological initiatives for Development of Health-care Products, Green Audit, Zero discharge and above all Industry 4.0, which is the future of all. The symposium would also create a platform for young scientists, researchers and budding future leaders of the Nation where they can deliberate innovative ideas.

About VIEM

VIEM, Kolkata, an organization devoted to the ideal of spirituality and philanthropic activities as posited by Swami Vivekananda, offers service to the humanity by organizing Green Energy and Environment Awareness Camps, Stress Management Programs for corporate groups, Corporate Social Responsibility (CSR) projects on social accountability, discussions on current environmental issues and discourses on Life and Teachings of Sri Ramakrishna, Holy Mother Sri Sarada Devi and Swami Vivekananda in order to combat Psychological Pollution apart from its mandate towards Environmental Research. The vision of the VIEM is : Achievement of one's own perfection as propounded by Swami Vivekananda and conservation/sustainable development of our Mother Earth. There are charitable program and projects for economically impaired and downtrodden people through the year.

About Jadavpur University

Jadavpur University is an outcome of nationalist movement initiated in the early twentieth century by the intellectuals and thinkers of Bengal. In addition to a rich heritage of the Faculties of Engineering, Arts and Science the University has a large number of Interdisciplinary Schools under Faculty of Interdisciplinary Studies, Law and Management. In the present age, the traditional rigid boundaries of disciplines are removed and the subjects are divided into smaller units that criss-cross and mix together to form new interdisciplinary ideas. All comprehensive and untiring efforts of Faculty members and staff and enthusiasm of the brightest students have catapulted the University to the top rank in research and teaching in the country. The University (JU) successfully completed the TEQIP project for phase III. We are proud to state NIRF India Ranking 2022 for Jadavpur University: 4th in 'University', 11th in 'Engineering', 13th in 'Research', 18th in 'Pharmacy', 12th in 'Overall' category.

Events

- ❖ Inauguration ❖ Keynote & Plenary Lectures
- ❖ Memorial Lectures ❖ Innovative ideas by Students and Research Scholars* (A ppt/live demonstration of actual models/prototypes by individual/ team of 3 members (max) on topics

leading to a sustainable future for humankind. Maximum duration: 8 minutes including queries posed by judges.

❖ **Presentation by Industries***

❖ **Paper Presentations***

❖ **Cultural/Awareness Program**

❖ **Distribution of Winter Garment/Blankets to underprivileged students**

* Authors/ teams are requested to mail abstracts (300 words) to ncgesd@gmail.com by 31 December 2022. The participants are requested to register immediately.

Registration Form/Format

Name :

Designation :

Name of Organization :

Category of Participation.....
Whether Presenting Paper: Yes / No

Email Address :

Mobile No:

.....
Signature

Registration fee : (including Kit & Lunch)
